War situation report

How is the new Kagawa Bank's success?

[First half of the war situation]

In the start of 1 minute and 30 seconds, Kagawa Bank got ahead of them quickly and got 3 points ahead of the opponent's mistake in a row. On the other hand, Osaka Ravitz also fights back with the middle shot of No. 19 Mihara, but he made a series of mistakes and allowed Kagawa Bank to make additional points. Osaka Ravitz pushed in a hurry after 11 minutes, took a 7m throw and chased it, and tied in 14 minutes. However, repeated shooting chances were blocked by the goal post, and the first half of the Kagawa Bank led by two points.

[Second half of the war situation]

The point difference between each other, the offensive and defensive, and the point difference in the first half is not easily reduced. I crushed the chance to close the gap with a passsmith, etc., and Osaka Ravitz can't grasp the pace. On the other hand, Kagawa Bank does not miss the opponent's mistakes and does not allow the lead. After 18 minutes, it's finally 5 points away! Osaka Ravitz raised the DF line around 24 minutes, attacked 7 people and tried to fight back, but as a result, Kagawa Bank ran away by one point.
